

AMT kits are molded from the finest High-Impact Styrene plastic. Use only paint and cement made for Styrene. Trim excess plastic from parts before joining. Use just enough cement to join parts, and be careful not to smear cement on exposed surfaces.

Build according to the instructions on this sheet, you should have no trouble assembling your model. Just FOLLOW THE NUMBERS. The parts are numbered in the order of assembly. **(C) INDICATES "CHROME" PARTS.**

[illegible]

The diagram illustrates the front and side views of a Watkins tractor. The front view shows the headlights, grille, and bumper. The side view shows the tractor's profile, including the wheels and the 'WATKINS' branding on the side panel. Various labels are shown, including the 'WATKINS' logo, the model number '4228', and the serial number '12E-400'. A dashed line indicates the location of the license plate holder template.

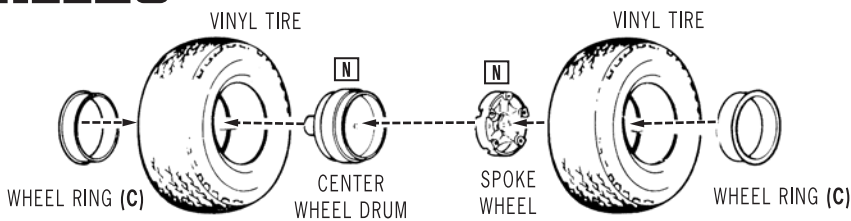

4. FINAL ASSEMBLIES

NOTE: This view shown upside down.

3. WHEELS

ASSEMBLE 4 SETS OF WHEELS AS SHOWN.

5. REFRIGERATION UNIT

NOTE: This kit can be built as a standard 40 foot Fruehauf trailer by eliminating the refrigeration parts.
